Contents

PROCEEDINGS AMERICAN CONCRETE INSTITUTE
VOLUME 66 **1969**

January 1969 JOURNAL

66-1 **Tentative Recommendations for the Design of Reinforced Concrete Members to Resist Torsion**
ACI Committee 438 1
Discussion—July 1969 JOURNAL, p. 576

Lateral Force Distribution in a Random System of Shear Elements
Stefan J. Medwadowski 8
Discussion—July 1969 JOURNAL, p. 589

Starter Forms for Mass Concrete
Andrew Dywan 11

66-2 **Background and Practical Application of Tentative Design Criteria for Torsion**
Thomas T. C. Hsu and E. L. Kemp 12
Discussion—July 1969 JOURNAL, p. 591

66-3 **Torsion in Spandrel Beams**
Kolbjorn Saether and N. M. Prachand 24

66-4 **Strength of Reinforced Concrete Beams With Web Reinforcement in Combined Torsion, Shear, and Bending**
D. L. Osburn, B. Mayoglou, and Alan H. Mattock 31
Discussion—July 1969 JOURNAL, p. 593

66-5 **Corrosion and Corrosion Protection of Tendons in Prestressed Concrete Bridges**
Rudolph Szilard 42
Discussion—July 1969 JOURNAL, p. 595

66-6 **Relationship Between Time-Dependent Deformation and Microcracking of Plain Concrete**
Bernard L. Meyers, Floyd O. Slate, and George Winter 60
Discussion—July 1969 JOURNAL, p. 600

66-7 **Modal Determination of the Effect of Bond Between Coarse Aggregate and Mortar on the Compressive Strength of Concrete**
Palle Nepper-Christensen and Tommy P. H. Nielsen 69
Discussion—July 1969 JOURNAL, p. 600

Technical Reviews 74

February 1969 JOURNAL

66-8 **Tentative Recommendations for Concrete Members Prestressed with Unbonded Tendons**
ACI-ASCE Committee 423 81

Charts for the Analysis of Rectangular Beams and Slabs
Clayton M. Crosier 87

66-9 **Fire Endurance of Two-Course Floors and Roofs**
M. S. Abrams and A. H. Gustaferro 92

66-10 **Design of a Circular Concrete Ring-Beam and Column System Supporting a Silo Hopper**
Sargis S. Safarian 103

66-11 **Factors Affecting the Stress-Strain Relation of Concrete in Uniaxial Tension**
Karol Komlos 111

66-12 **Extending the Interpretation of Concrete Strength Data**
Robert G. Sexsmith 115
Discussion—August 1969 JOURNAL, p. 678

Western Airlines Warehouse and Shop Building, Los Angeles
Andrew R. Nasser 118

66-13 **Shear Transfer in Reinforced Concrete**
J. A. Hofbeck, I. O. Ibrahim and Alan H. Mattock 119
Discussion—August 1969 JOURNAL, p. 678

66-14 **Sudden Collapse of Unbonded Underprestressed Structures** — G. I. N. Rozvany and J. F. Woods — 129
Discussion—August 1969 JOURNAL, p. 680

66-15 **Triaxial Behavior of Concrete** — Noel J. Gardner — 136

Technical Reviews — 159

March 1969 JOURNAL

66-16 **Effect of Steel Strength and of Reinforcement Ratio on the Mode of Failure and Strain Energy Capacity of Reinforced Concrete Beams** — ACI Committee 439 — 165
Discussion—September 1969 JOURNAL, p. 767

66-17 **Bond Studies on Hot Dip Galvanized Reinforcement in Concrete** — A. Hofsoy and I. Gukild — 174

66-18 **A Rational Theory for the Function of Web Reinforcement** — G. N. J. Kani — 185
Discussion—September 1969 JOURNAL, p. 769

66-19 **Relation Between Compressive Strength of Concrete and the Effective Cement-Water Ratio Calculated from the Hydration Rate of Cement** — Shingo Seki, Kiyoshi Kasahara, Takeo Kuriyama, and Makoto Kawasumi — 198

Ferro-Cement Boats — M. K. Hurd — 202

66-20 **Design of Connecting Beams in Coupled Shear Wall Structures** — A. Coull and A. W. Irwin — 205
Discussion—September 1969 JOURNAL, p. 774

Abstracts — 210

Technical Reviews — 229

April 1969 JOURNAL

66-21 **Proposed ACI Standard: Specifications for Cast-in-Place Nonreinforced Concrete Pipe** — ACI Committee 346 — 245

66-22 **Recommendations for Cast-in-Place Nonreinforced Concrete Pipe** — ACI Committee 346 — 252

66-23 **Quality Standards and Tests for Precast Concrete Wall Panels** — ACI Committee 533 — 270
Discussion—October 1969 JOURNAL, p. 849

66-24 **Proposed Changes in Shear Provisions for Reinforced and Prestressed Concrete Beams** — James G. MacGregor and John M. Hanson — 276
Discussion—October 1969 JOURNAL, p. 849

Abstracts — 289

Technical Reviews — 354

May 1969 JOURNAL

66-25 **Progress Through Knowledge** — Graydon E. Burnett — 361

66-26 **Recommended Practice for Selecting Proportions for Structural Lightweight Concrete (ACI 211.2-69)** — ACI Committee 211 — 365

66-27 **Crack Control in One-Way Slabs Reinforced with Deformed Welded Wire Fabric** — John P. Lloyd, Hassan M. Rejali, and Clyde E. Kesler — 366
Discussion—November 1969 JOURNAL, p. 933

66-28 **Pullout Bond Stress Distribution Under Static and Dynamic Repeated Loadings** — Ervin S. Perry and Nabil Jundi — 377

66-29 **Shock-Absorbing Soft Story Concept for Multistory Earthquake Structures** — Mark Fintel and Fazlur R. Khan — 381
Discussion—November 1969 JOURNAL, p. 934

66-30 **Creep and Creep Recovery of Concrete Subjected to Multiaxial Compressive Stress**
D. J. Hannant 391

66-31 **Analysis of Hyperbolic Cooling Towers**
Kuang-Han Chu and Marvin Jones 395
Discussion—November 1969 JOURNAL, p. 938

66-32 **Design and Construction Aspects of Large Prestressed Concrete (PWR) Containment Structures**
Howard W. Wahl and Richard J. Kosiba 400
Discussion—November 1969 JOURNAL, p. 938

66-33 **Reliability Analysis of Concrete Members**
Robert G. Sexsmith 413

66-34 **Behavior of Reinforced Concrete Beams Under Combined Bending, Shear, and Torsion**
M. S. Mirza and J. O. McCutcheon 421
Discussion—November 1969 JOURNAL, p. 940

66-35 **Tests to Failure in Bending and Torsion of Reinforced Concrete Bents**
V. Ramakrishnan and Y. Ananthanarayana 428
Discussion—November 1969 JOURNAL, p. 943

Technical Reviews 444

June 1969 JOURNAL

66-36 **Prediction of Initial Cracking and Crack Propagation in Reinforced Models**
James Chinn and Staley F. Adams 457

66-37 **The Bending Stiffness of Slabs Connecting Shear Walls**
Aslam Qadeer and Bryan Stafford Smith 464
Discussion—December 1969 JOURNAL, p. 1021

66-38 **The Fineness Modulus and Its Dispersion Index**
Philippe Lecompte 474
Discussion—December 1969 JOURNAL, p. 1023

66-39 **Fracture Toughness of Portland Cement Concretes**
Dan J. Naus and James L. Lott 481

66-40 **Shear Capacity of Lightweight Concrete Flat Slabs**
Charles B. Ivy, Don L. Ivey, and Eugene Buth 490
Discussion—December 1969 JOURNAL, p. 1024

Bending Moments in Prestressed Concrete Structures by Prestressing Moment Influence Coefficients
Amin Ghali 494
Discussion—December 1969 JOURNAL, p. 1027

Technical Reviews 502

July 1969 JOURNAL

66-41 **Olympic Ice Stadium at Grenoble**
Nicholas Esquillan 513

Two-Piece U-Stirrups in Reinforced Concrete Beams
Umakanta Behera and K. S. Rajagopalan 522

66-42 **Prestressed Concrete Beams Under Combined Torsion, Bending, and Shear**
Alfred Bishara 525
Discussion—January 1970 JOURNAL, p. 61

66-43 **Minimum Strength Specifications Can Be Practical**
William A. Cordon 539
Discussion—January 1970 JOURNAL, p. 63

Nomographs for Design of Rectangular Spread Footings
Eugene Henye 545

66-44 **Evaluation of the Stress-Strain Curve of Concrete in Flexure Using Method of Least Squares**
Reginald G. Smith and Cornelius O. Orangun 553
Discussion—January 1970 JOURNAL, p. 70

66-45 **Studies of Autogenous Volume Change in Concrete for Dworshak Dam**
Ivan E. Houk, Jr., Orville E. Borge, and Donald L. Houghton 560

66-46 **Analysis of Reinforced Concrete Columns Subjected to Longitudinal Load and Biaxial Bending**
Anis Farah and M. W. Huggins 569

Technical Reviews 604

August 1969 JOURNAL

66-47 **Recommended Practice for Concrete Floor and Slab Construction (ACI 302-69)**
ACI Committee 302 609

66-48 **Specification for the Design and Construction of Reinforced Concrete Chimneys (ACI 307-69)**
ACI Committee 307 610

66-49 **Proposed Revision of ACI 613-54: Recommended Practice for Selecting Proportions for Normal Weight Concrete**
ACI Committee 211 612
Discussion—February 1970 JOURNAL, p. 192

66-50 **Proposed ACI Standard: Recommended Practice for Atmospheric Pressure Steam Curing of Concrete**
ACI Committee 517 629

66-51 **Design Pressure of Granular Materials in Silos**
Sargis S. Safarian 647

66-52 **Behavior of Concrete Under Biaxial Stresses**
Helmut Kupfer, Hubert K. Hilsdorf, and Hubert Rusch 656
Discussion—February 1970 JOURNAL, p. 194

66-53 **Experimental Stresses and Deflections of a Model Shear Wall Structure**
M. Holmes, A. W. Astill, and L. H. Martin 667

Technical Reviews 683

September 1969 JOURNAL

66-54 **The Rational Probabilistic Code Format**
H. C. Shah 689
Discussion—June 1970 JOURNAL, p. 470

66-55 **Precast 150 ft Diameter Dome**
Francis X. Crowley 698

66-56 **Behavior of Reinforced Concrete Frames Under Cyclic Loads Using Small Scale Models**
Gajanan M. Sabnis and Richard N. White 703

66-57 **Autogenous and Hygrometric Expansion of Mass Concrete**
J. Laginha Serafim and Marciano Guerreiro 716

New Workability and Compacting Apparatus for Concrete
Karim W. Nasser and Cheuk Man Ma 720

66-58 **Tests of Grouted Anchor Bolts in Tension and Shear**
Richard F. Conard 725

66-59 **Lateral Load Analysis of Multistory Structures Comprising Shear Walls With Sudden Changes in Stiffness**
Jacob Gluck 729
Discussion—March 1970 JOURNAL, p. 265

66-60 **Creep of Preshrunk Concrete**
Donald R. Buettner and Ronald L. Hollrah 737

66-61 **Yield Line Analysis of Slabs Supported on Three Sides**
Edward C. Demsky and David S. Hatcher 741
Discussion—March 1970 JOURNAL, p. 266

66-62 **Repetitive Dynamic Loading on Pretensioned Prestressed Beams**
Bruce C. Coles and Wayne A. Hamilton 745
Discussion—March 1970 JOURNAL, p. 266

66-63 **Influence of Drying on Strength of Concrete Specimens**
C. D. Johnston and E. H. Sidwell 748

66-64 **Tests of Reinforced Concrete Wall Beams With Large Web Openings**
James E. Carpenter and Norman W. Hanson 756

Technical Reviews 776

October 1969 JOURNAL

66-65 **Preplaced Aggregate Concrete for Structural and Mass Concrete**
ACI Committee 304 785
Discussion—April 1970 JOURNAL, p. 360

66-66 **Precast Concrete Units Used as Forms for Cast-in-Place Concrete**
ACI Committee 347 798

66-67 **Selection and Use of Materials for Precast Concrete Wall Panels**
ACI Committee 533 814

Design Coefficients for Flat Slab Structures With Drop Panels
David Morris — 820

66-68 **Limitations in Application of Probabilistic Concepts**
Robert G. Sexsmith and Mark F. Nelson — 823
Discussion—June 1970 JOURNAL, p. 470

66-69 **Polymerization Makes Tougher Concrete**
J. T. Dikeou, L. E. Kukacka, J. E. Backstrom, and M. Steinberg — 829

66-70 **Bond Strength as a Function of Strand Tension and Cement Paste Content for Lightweight Aggregate Concrete**
Leonard G. Tulin and Maluf M. Al-Chalabi — 840

66-71 **A Concrete Creep, Shrinkage, and Cracking Law for Frame Structures**
Lawrence G. Selna — 847

Technical Reviews — 851

November 1969 JOURNAL

66-72 **A Probabilistic Basis for a Deterministic Code**
Jack R. Benjamin and N. C. Lind — 857
Discussion—June 1970 JOURNAL, p. 470

66-73 **Eccentrically Loaded Concrete Columns Under Sustained Load**
R. Green and John E. Breen — 866

66-74 **End Anchorage of High Strength Steel Reinforcing Bars**
John A. Hribar and Raymond C. Vasko — 875
Discussion—May 1970 JOURNAL, p. 423

66-75 **Long Cantilever Columns Subject to Lateral Forces**
John E. Breen and Phil M. Ferguson — 884

66-76 **Some Field Experience in the Use of an Accelerated Method of Estimating 28-day Strength of Concrete**
V. M. Malhotra and N. G. Zoldners — 894
Discussion—May 1970 JOURNAL, p. 424

66-77 **A Criterion for Optimal Design of Plates**
John F. Brotchie — 898

66-78 **Time-Dependent Forces Induced by Settlement of Supports in Continuous Reinforced Concrete Beams**
Amin Ghali, Walter Dilger, and Adam M. Neville — 907

66-79 **Structural Evaluation of Scarf Connections With Epoxy Mortar Cushioning**
Alfred Bishara and Wei-Lee Shia — 916

66-80 **Strengthening Prestressed Concrete Pavement**
Michel Sargious and Amir Bissada — 920

66-81 **Torsional Strength and Behavior of Spandrel Beams**
James O. Jirsa, John L. Baumgartner, and Nathan C. Mogbo — 926
Discussion—May 1970 JOURNAL, p. 434

Technical Reviews — 944

December 1969 JOURNAL

66-82 **Strength and Cracking Characteristics of Beams with #14 and #18 Bars Spliced with Mechanical Splices**
Mete A. Sozen and William L. Gamble — 949

66-83 **Effects of Column Creep and Shrinkage in Tall Structures — Prediction of Inelastic Column Shortening**
Mark Fintel and Fazlur R. Khan — 957
Discussion—June 1970 JOURNAL, p. 473

66-84 **Shrinkage Stresses in Concrete as a Viscoelastic Material**
Mitsunori Kawamura — 968

Design and Construction of Silos in USSR
B. A. Kalaturov and F. A. Issers — 971

Recommended Research and Development Program on Materials and Methods for Controlling the Occurrence of Voids in Formed Surfaces of Concrete
ACI Committee 114 — 973

66-85 **A Probability-Based Structural Code**
C. Allin Cornell — 974
Discussion—June 1970 JOURNAL, p. 470

66-86 **Combined Torsion in Reinforced Concrete L-Beams with Stirrups**
Huey ming Liao and Phil M. Ferguson 986
Discussion—June 1970 JOURNAL, p. 475

66-87 **Membrane Stresses in Hyperbolic Paraboloid Shells Having a Parallelogram Shape in Plan**
H. D. Ramirez, A. C. Scordelis, and D. Ngo 994
Discussion—June 1970 JOURNAL, p. 477

66-88 **Behavior of Prestressed Concrete Waffle Slab with Unbonded Tendons**
M. A. Muspratt 1001

66-89 **Analysis of Shear Walls Using Standard Computer Programs**
Joseph Schwaighofer and Helmut F. Microys 1005
Discussion—June 1970 JOURNAL, p. 477

66-90 **Creep Poisson's Ratio of Concrete Under Multiaxial Compression**
K. S. Gopalakrishnan, Adam M. Neville, and Amin Ghali 1008
Discussion—June 1970 JOURNAL, p. 479

Defects in Formed Concrete Surfaces
M. K. Hurd 1020

Technical Reviews 1028

Index to Proceedings V. 66 1033

Errata

The following corrections should be made in "The Fineness Modulus and Its Dispersion Index" which appeared in the June 1969 JOURNAL.

p. 478 — Eq. (3) should be changed to read:

$$\overline{X} = A + m(F_1 - 1)$$

p. 480 — in the fifth paragraph, which begins "For a log-normal distribution . . . ," the expression should read:

$$\sqrt{(\text{Max}) \times (\text{Min})}$$

INDEX

PROCEEDINGS AMERICAN CONCRETE INSTITUTE
VOLUME 66 1969

Original contributions to the JOURNAL OF THE AMERICAN CONCRETE INSTITUTE—individually authored papers, committee reports and standards, technical features, and abstracts of separate ACI publications—are indexed in three categories:

1. Title ..... **Minimum strength specifications can be practical** (66-43) William A. Cordon July 1969 .. 539
2. Author ..... **Cordon, William A.**—Minimum strength specifications can be practical (66-43) July 1969 539
3. Subject ..... **Specification** — Compressive strength—Quality control (66-43) July 1969 539

Numbers in the parentheses with each entry constitute the title number of the paper or report. The first number is the number of the *Proceedings* volume in which the paper appeared; the second number is the number of the paper in the volume. For technical features and abstracts, which are not assigned a paper number, the identifying abbreviations TF and AB are given; i.e., (66-TF) and (66-AB). The month and year indicate the JOURNAL issue in which the material appeared. Page numbers indicate the first page of the item and are the same for JOURNAL and *Proceedings*.

Subentries to the title are given for all papers, reports, and technical features which have been discussed. Where no discussion subentry is given, the item received no discussion (see below concerning discussion of separate publications). If the discussion appears in the same volume as the paper, the contributors are listed with month and year of issue and page number in the subentry. If discussion is in the subsequent volume, this fact is noted in the subentry and the month, year, and page are given where the discussion can be found. In addition, discussion and contributors to discussion are listed alphabetically in the index to the volume in which the discussion appears.

Discussion of separate ACI publications, if received, does not appear until a year or longer after publication of the abstract and information is not always available in time to include in the annual index. Notices appearing with each abstract indicate in which issue discussion will appear if it develops. Discussion of separate publications is indexed in the volume in which it appears.

An index to material of a technical nature published in the "News" section of the JOURNAL (not a part of or bound with *Proceedings*) is included following the *Proceedings* index for the convenience of readers who retain the monthly issues.

–Disc. Exploratory shear tests emphasizing percentage of longitudinal steel (65-46) Feb. 1969 ... 150
–Disc. Rational theory for the function of web reinforcement, A (66-18) Sept. 1969 ... 769
Woodhead, H. R. — Disc. Tentative recommendations for the design of reinforced concrete members to resist torsion (66-1) July 1969 ... 576
Woods, J. R.
–Sudden collapse of unbonded underprestressed structures (66-14) Feb. 1969 ... 129
–Closure (66-14) Aug. 1969 ... 680
Workability
–Compaction — Apparatus (66-TF) Sept. 1969 ... 720
–Mix proportioning (66-49) Aug. 1969 ... 612
Working stress — Bridge — Symposium abstract, SP-23 (66-AB) Apr. 1969 ... 293
Wright, D. T. — Disc. Aspects of torsion in concrete structure design (SP 18-1) Apr. 1969 ... 312

Y

Yang, Y. C. — Post-tensioned waffle and multispan cantilever system with y piers composing the Hegenberger Overpass — Symposium abstract, SP-23 (66-AB) Apr. 1969 ... 293
Yield line analysis of slabs supported on three sides (66-61)
–Edward C. Demsky and David S. Hatcher Sept. 1969 ... 741
–Disc. by Aron Zaslavsky *Proc.* V. 67 Mar. 1970, p. 266
Yield line method — Bridge — Symposium abstract, SP-23 (66-AB) Apr. 1969 ... 293
Yield line theory — Slab — Reinforcement (66-61) Sept. 1969 ... 741

Z

Zederbaum, Joseph — Factors influencing the longitudinal movement of a concrete bridge with special reference to deck contraction — Symposium abstract, SP-23 (66-AB) Apr. 1969 ... 293
Zia, Paul
–Disc. closure Combined bending and torsion of reinforced plaster model beams (SP 18-12) Apr. 1969 ... 331
–Disc. closure Torsion theories for concrete members (SP 18-4) Apr. 1969 ... 317
Zoldners, N. G. — Some field experience in the use of an accelerated method of estimating 28-day strength of concrete (66-76) Nov. 1969 ... 894
Zsutty, Theodore C.
–Disc. closure Beam shear strength prediction by analysis of existing data (65-71) May 1969 ... 435
–Disc. Proposed changes in shear provisions for reinforced and prestressed concrete beams (66-24) Oct. 1969 ... 849

Index to News

From ACI JOURNAL, V. 66, January to December 1969

An index to feature material published in the "News" pages for readers who retain the monthly issues. The "News" sections of the JOURNAL are not a part of or bound with the *Proceedings*.

ACI annual report—1968 activities Apr. 1969 ..... N1
ACI building
-Groundbreaking Aug. 1969 ..... N1
-Progress photos Sept. 1969 ..... N5
-Progress photos Oct. 1969 ..... N5
-Progress photos Nov. 1969 ..... N5
-Progress photos Dec. 1969 ..... N9
ACI bylaws—Proposed changes Jan. 1969 ..... N2
Aggregates—Special facing—List of suppliers Mar. 1969 ..... N15
Algorithm policy—ACI Nov. 1969 ..... N8
Bank of Hawaii—Construction June 1969 ..... N13
Church—St. Basil—Architectural concrete Nov. 1969 ..... N7
Den Hartog, M.D.—Quality Concrete—A joint effort Feb. 1969 ..... N3
Education, ACI
-Institute's function Feb. 1969 ..... N7
-Plugging the hole with concrete, Howard C. Wiechman Sept. 1969 ..... N9
-Structuring the ACI program Mar. 1969 ..... N9
Lightweight concrete—Low-cost housing Nov. 1969 N15
Low-cost housing—Phoenix project—NBS studies July 1969 ..... N5
Pumped concrete—Oct. 1969 ..... N1
Quality concrete—A joint effort M. D. Den Hartog Feb. 1970 ..... N3
Soil-cement innovations—Nov. 1969 ..... N1
St. Vincent College—Semicircular building—Construction July 1969 ..... N9
Systems building—Low-rise apartments July 1969 N1
TAC report 1969—June 1969 ..... N9
Wiechman, Howard C.—Plugging the hole with concrete Sept. 1969 ..... N9
